1 of 6 modules complete

**Think about school holidays in the last 12 months (spent in United Kingdom or abroad).**

When you were with **adults** during **the school holidays**, how often did these adults use each language when speaking to you?

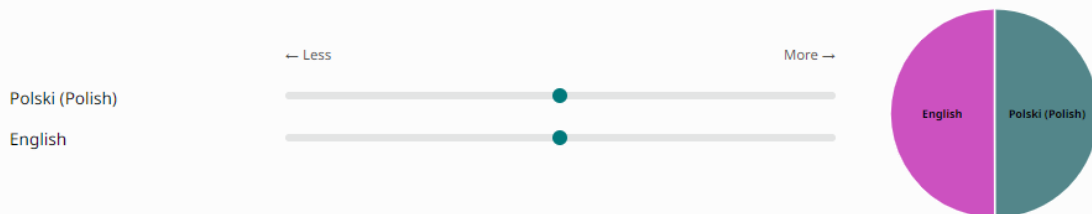

When you were with **adults** during **the school holidays**, how often did you use each language when speaking to them?

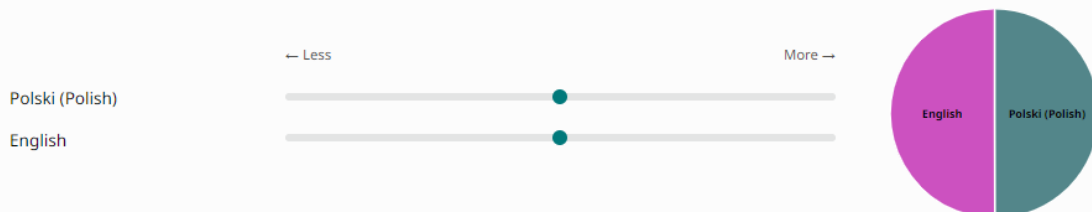

When you were with **other children (including brothers and/or sisters)** during **the school holidays**, how often did these children use each language when speaking to you?

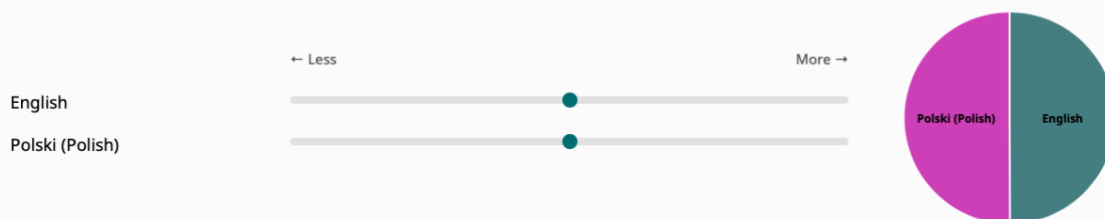

When you were with **other children (including brothers and/or sisters)** during **the school holidays**, how often did you use each language when speaking to them?

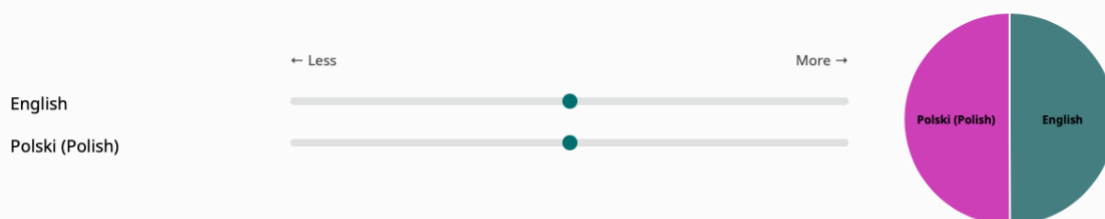

### Current estimates (short)

Think about a typical week in the current year.

**At home**, how often do **people** use each language when speaking to you?

**At home**, how often do **you** use each language when speaking to other people?

Think about a typical week in the current year.

At school, how often do **people** use each language when speaking to you?

At school, how often do **you** use each language when speaking to other people?

Think about a typical week in the current year.

In the local community (outside school), how often do **people** use each language when speaking to you?

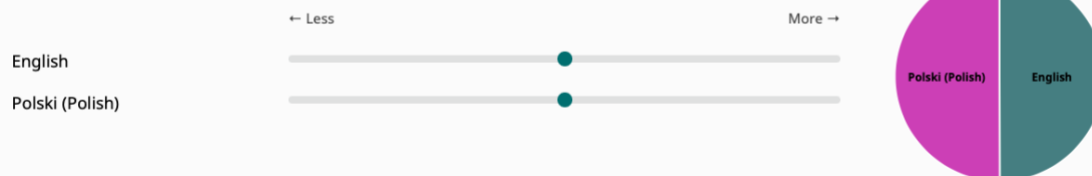

In the local community (outside school), how often do **you** use each language when speaking to other people?

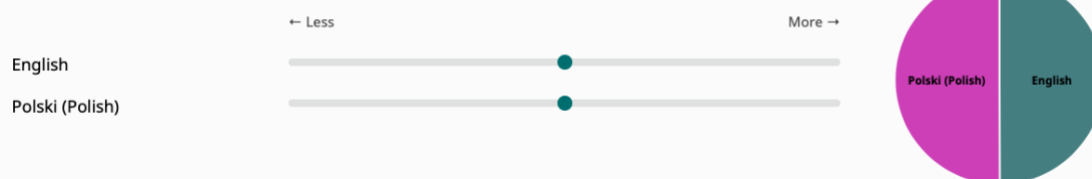

Think about a typical day during the school holidays in the last 12 months (spent in United Kingdom or abroad).

How often do **people** use each language when speaking to you?

How often do **you** use each language when speaking to other people?

## Cumulative estimates

Have there been major changes in how much you heard any of your language(s)? For example: starting nursery or school in a particular language, moving to a different country, a new caregiver in the home. For each change, please provide the age that you were when the change happened. If irrelevant, please move to the next question.

Age at important change 1

year(s) and  month(s)
